

Re: IMPORTANT UPDATE - Notice Regarding Participation in Rockland Community Power Electricity Program

October 19, 2022

Dear Rockland Community Power Program Participant,

This letter is to inform you that as of November 1 or shortly after, you will be returned to Orange and Rockland standard electricity supply service and will not be served this winter by the Community Choice Aggregation (CCA) program through Rockland Community Power. Orange and Rockland will also communicate with you about this transfer by letter.

This transfer has occurred because the current CCA program contract has ended, and a new contract for renewable and standard energy supply has not yet been finalized. We regret that current market conditions, driven by geopolitical (war in Ukraine) and macroeconomic forces (inflation) have made it challenging to enter the next contract seamlessly.

As of November 1, you will not receive the fixed rate for electricity supply that was previously provided through the Rockland Community Power CCA contract and you will temporarily be returned to variable rate Orange and Rockland electricity supply. We anticipate that the CCA program will re-start this spring and that several energy options, including 100% renewable electricity supply, will be available to you through the program. We expect to provide information on the next contract soon.

How will this impact you?

You will not see any interruption in your utility service, and no further action is required on your part. You will continue to receive a monthly electric bill from Orange and Rockland. Going forward the monthly utility rate will be reflected in the supply portion of your bill, just as before the program began. **Benefits of the program**

Over the last two years, participants have collectively saved over \$9.5 million through the program's fixed electricity supply rate. In addition to cost savings, the program's 100% NYS renewable supply has saved over 42,000 metric tons of CO₂ and advanced the state's clean energy goals. *These benefits are due largely to the support of your municipality pioneering this electricity program in the region.*

If you are currently enrolled in Community Solar through the Rockland Community Power program, those benefits will continue unchanged.

The Rockland Community Power customer support team is available to answer any questions. Please feel free to call **(845) 859-9099 ext. 1** or email **info@rocklandcommunitypower.com**. For information and updates visit www.rocklandcommunitypower.com.

Thank you for your participation in the program.

Sincerely,
Rockland Community Power

Esta carta es para informarle que a partir del 1ero de Noviembre del 2022, Orange and Rockland a restituido su servicio de suministro de electricidad estándar. Si tiene preguntas comuníquese al: (845) 859-9099 opción 3
