

TOWN OF ORANGETOWN

Rockland Community Power

Dear Town of Orangetown Resident,

November 8, 2021

The Town of Orangetown is a participant in Rockland Community Power, a Community Choice Aggregation (CCA) program¹ that allows us to pool local electricity demand with other Rockland County municipalities to provide low cost, **fixed-rate electricity supply**. Each participating community has selected Joule Community Power² as Program Administrator. Joule works on behalf of the municipalities to secure energy supply at the most favorable terms and ensures there are **no contract or exit fees** for consumers.

Supply Options

There are two fixed-rate electricity supply options under our program: **(1) Standard** and **(2) 100% Renewable**. You may choose between these supply options or opt-out of the program. The Town of Orangetown has chosen the Standard Option as the default electricity supply. **You will automatically be enrolled in the Standard Option unless you choose the 100% Renewable Option or to opt-out of the program.**

- **Standard Option:** Your electricity supply is a mixture of fossil fuels, nuclear, and some renewable energy.
- **100% Renewable Option:** 100% of your electricity supply is matched by Renewable Energy Certificates (RECs) provided by New York State renewable power plants (hydropower, wind, solar). To switch to the 100% Renewable Option, please call (845) 859-9099 x1 or visit rocklandcommunitypower.com and submit your information through the Enrollment/Change form on the homepage.
